## NEW IN THIS RELEASE

### Purpose of this Release

The purpose of this release is to restore compatibility with the latest COMSPHERE 6700 NMS PTF releases.

### New Features

None

### QRs/MRs Closed

The following QRs are fixed in this release. An "\*" denotes new QRs fixed in this release.

QR Number	AR Number	Problem Description

### Known Problems

None.

### PTFs Incorporated

None.

### New Modules

None.

### New Files/Procedures Created

See ISDNSERV.WRI the PCNMS\directory using Microsoft WRITE application. See DSU.LST within the INSTALL directory for a complete list of modules in this release.

### Product History

- 1.3 October 31, 1996
- 1.2 January 31, 1994
- 1.1 October 23, 1994

### Software Replaced

This release will completely replace all previous COMSPHERE 6700 DSU Feature software releases. However, this release will not replace an existing customers' NMS database, but will be upgraded to the current level of this release.

### **User Documentation Changes**

None.

### **Required Documentation**

The following documents comprise the complete set of user documentation for the 6700 NMS. These documents cover all aspects of the installation and operation of the system.

- COMSPHERE 6700 Series NMS Series (6700-A2-GY31-60)

## SOFTWARE MEDIA DESCRIPTION

The COMSPHERE 3600 DSU Feature consist of one (1) 3.5 installation diskette which is labeled as "COMSPHERE 3600 DSU Feature" along with the PTF release number. In the event a 3.5" diskette is unavailable, the 3.5" diskettes can be copied to a 5.25" diskette with no impact on the installation procedures. The 3.5 diskette used in the installation of the COMSPHERE 6700 Series NMS is formatted as 1.44 MB doubled-sided, high-density, write-protected, with nine sectors per track, 80 tracks per side and 135 tracks per inch. The diskette is in DOS format.

The manufactured software bears a label which contains the official product name, model/feature number, software assembly number, volume product number, release number, and copyright notice. No serialization is embedded in any of the above media. Below is an example of the label.
